Utilize Outreach Materials

More than 120 materials and resources across languages are now available on the 2020 Census website—including handouts, posters, social media posts, toolkits and other resources. Materials can be filtered by language, type and audience and can be used both digitally and in print.

2020census.gov/partners

From the 2020census.gov homepage, click on Partners in the top left corner, then click on Outreach Materials on the left side navigation.

To narrow results, filter materials by language, document type, or who/what the information is for.
